

## WORKING MODEL OF STARTER ASSEMBLY

MODEL: AUTO04

### FEATURES

- Compact, comprehensive, sturdy design
- Easy to understand layout with mimic diagram

### DESCRIPTION

The system is designed using manufacturer's original components. All the working components are mounted on a panel. Each of the components have nomenclature. When connected to a battery/ electrical supply (supplied as optional additional item), the system operates. This gives hands-on experience to the students.

Optionally a fault simulator is supplied to simulate fault. This sharpens the skill of the trainees on fault finding.

### INSTRUCTION MANUAL

Self -explanatory operating manuals are provided with each system. Detailed theory

as well as practical exercises is also included in the manual

### COMPONENTS

- Starter motor
- Relay
- Switch
- Wiring and electrical material

### OPTIONAL

- 230V AC operated supply for the unit
- Battery
- Fault simulator

### MODELS

- AUTO04-A: Two wheeler vehicle system
- AUTO04-B: Four wheeler vehicle system
