

CUT SECTION OF REFRIGERATION COMPONENTS

MODEL: CUT02

FEATURES

- Colour-coded system for better understanding
- Stand mounted for better ergonomics

DESCRIPTION

Our models facilitate thorough understanding because they are actual system components, apart from being life-sized. All details of construction and working of every component are clearly exposed. Different working systems are colored differently to make learning easier.

All systems are operational, thereby ensuring that their working can be demonstrated effectively.

The cut section is so taken as to expose internal working parts.

LIST OF CUT SECTIONS

- Standard Set: Model: CUT02-A
 1. Thermostatic expansion valve, Automatic Expansion Valve
 2. Thermostat
 3. Solenoid valve
 4. Charging valve
 5. Refrigeration compressor
 6. Pressure gauge
 7. H. P./L. P. Cut-off switch
 8. Dryer and Filter
 9. Condenser, Evaporator
 10. Electrical activation switches
 11. Relay timer
 12. Time delay relay
 13. Distribution transformer
 14. Run capacitor and start capacitor
- Cut Section of Reciprocating Compressor, Model: CUT02-B
- Cut Section of Open Type Compressor, Model: CUT02-C
- Cut Section of Rotary Compressor, Model: CUT02-D
