

CUT SECTION OF COOLING AND LUBRICATION SYSTEM

MODEL: CUT12

FEATURES

- Cut Section of Actual Automobile Component
- Colour-coded system for better understanding
- Stand mounted for better ergonomics

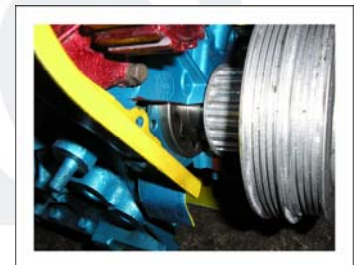

DESCRIPTION

Our models facilitate thorough understanding because they are actual systems, apart from being life-sized. All details of construction and working of almost every component are clearly exposed. Different working systems are coloured differently to make learning easier. All systems are moving/operational (wherever applicable), thereby ensuring that their working can be demonstrated effectively.

The cut section is so taken as to expose internal working parts.

The system consists of,

1. Lub Oil Pump
2. Radiator
3. Cooling Water Pump
4. Hoses
5. Stand
