

EOT CRANE TRAINER

MODEL: MCTR14

FEATURES

- Robust and modular construction
- All industrial components used

DESCRIPTION

Crane is an indispensable for easy lifting and transportation of goods or materials. This training crane is custom designed and built for demonstration and hands-on experience in safety protocols of an EOT crane, use of safety signs and training on its periodic inspection and maintenance. Small size of 1000 mm X 1000 mm X 1000mm crane saves space and enhances safety. Limit switches are provided as a safety device to detect maximum and minimum position of crane. Remote pendant is provided to control forward/reverse, up/down and sideways movement of Hoist and Crane electrically. There is a facility to deliberately induce faults for better training capabilities.

INSTRUCTION MANUAL

Self explanatory operating manuals are provided with each system. Detailed theory as well as practical exercises are also included in the manual.

FAULTS

- Phase reversal
- Single phasing
- Excessive friction (No lubrication)

SERVICES REQUIRED

- Electric supply
